

# Heathfield Summer School 2009

## Teacher's Report on Student Progress

**Student:** Paula Butterweck

**Length of Course:** 2 weeks

**Level:** Upper-Intermediate

### Teacher's Report:

*Paula is a very enthusiastic and hard-working student. She has made excellent progress in her oral language skills over the last three weeks, and her participation in class discussion has been extremely good. She gets on very well with the other girls in her class – she is very popular – and she is always polite and thoughtful towards others.*

*During lessons Paula has worked well in individual and group situations. We have spent time on vocabulary, pronunciation, grammar, listening and writing skills. We have also read a selection of short stories. Paula has kept a detailed diary as well. The effort she has put into the diary has been excellent, and she has displayed a good level in her written English. Well done! She shows a great deal of maturity in her attitude to learning English and if she combines this with extensive reading in English her level will soon be outstanding.*

*Out of class Paula has been involved in a wide range of activities. She has taken advantage of the cultural trips we have made to English cities, and she has got involved in a wide variety of school activities in the afternoons and evenings. This has given her many opportunities to speak English out of class, and I feel that this has increased her fluency.*

*Paula has been a pleasure to teach, and I wish her well in her English studies in the future.*

**Teacher:** David Bumstead
